JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact [support@jstor.org](mailto:support@jstor.org).

## CANADA.

## Smallpox.

Consul Cole at Dawson reports:

Smallpox has become epidemic at Dawson. During the week ended June 24, 9 new cases were reported. At the close of the week there were 16 cases present.<sup>1</sup>

Consul General Jones at Winnipeg, Manitoba, reports, July 8:

The smallpox epidemic which originated at Point du Bois is assuming alarming proportions, and the disease is spreading to other localities. At Fort Alexander 19 cases among Indians were reported to the provincial health authorities, and the entire community has been quarantined. The type of the disease is mild. One case is reported at Mapleton in the person of a man who had worked at Point du Bois. It is stated that there were many contacts of this case. The patient was removed to Selkirk. The Canadian Pacific Railroad has been directed not to take passengers from Lac du Bonnet, at which locality a case of smallpox was reported. Strict quarantine regulations have been instituted at Point du Bois.

## CHINA.

## Amoy—Cholera and Plague.

Acting Asst. Surg. Bonthius reports, June 19:

During the week ended June 17, 1 death from cholera and 2 deaths from bubonic plague were reported at the international settlement of Kulangsu.

## Hongkong—Plague—Plague-Infected Rats.

Surg. Brown reports, June 15:

During the week ended June 10, 37 cases of plague with 26 deaths were reported. The report of rat examination shows the finding of 25 plague-infected rats during the week.

## CUBA.
